# DESIGN SYSTEMS

The image displays two GitHub repository cards. The left card is for 'ant-design / ant-design', described as 'An enterprise-class UI design language and React UI library'. It has 948 issues, 82 pull requests, 87.7k stars, and 41.9k forks. The right card is for 'primer / react', described as 'An implementation of GitHub's Primer Design System using React'. It has 65 issues, 37 pull requests, 2.7k stars, and 498 forks. An arrow labeled 'accessibility' points from the top right of the 'ant-design' card to the 'react' card. Another arrow labeled 'component API design' points from the '87.7k stars' metric of the 'ant-design' card to the 'react' card.
